SUMMARY

Hi I'm Abhijeet a self taught certified, design thinking full-stack JavaScript developer with a passion for motion design. I'm currently living in Ranchi, Jharkhand. I'm an absolute geek and love geeking out on all things about different languages. Whether it's creating servers in Node.js, connecting to MongoDB databases or designing unique user experiences per device whilst still maintaining a consistent brand experience I will bring your ideas to life.

EDUCATION

Vellore Institute of Technology, Vellore

2016 – 2020

Electrical and Electronics
 CGPA/Aggregate: **7.2**

TECHNICAL SKILLS

Searching and Sorting, C++ and Data-structures, MongoDB, jQuery, HTML 5 and CSS 3, Bootstrap, Javascript, Tableau, node.js, express.js, SASS/SCSS

PROJECTS

Vanilla Javascript Todo List

Normal Todo List using vanilla javascript.
 Styling is done using bootstrap,css and font-awesome icons.

Planner App

4 weeks

This is a planning application where you can schedule your task put in the date and details about the task and delete it when it's done.
 The data gets stored permanently in the database(mongoDB using robo3t) and express.js is used to set up the server.
 It has the MVC structure where template engine used is EJS.
Link: github.com/abhijeet-cr7

Contact List App

3 weeks

used express js and embedded javascript template engine(ejs) to set up the server.
 used mvc framework with model as mongodb and mongoose(framework).
 used robo3t to store the database.
